Recitals

- The parties entered into a construction related contract on or about the date indicated above (Date of Original Contract).
- In order to complete the work or services described in the original contract, certain heavy equipment is needed, which may cause damage to surrounding structures, ground cover, or terrain.
- This Waiver of Liability is needed to show that the customers identified above consent to the use of the heavy equipment described, and release Van Gordon Land Solutions, LLC from liability of any damage caused by the heavy equipment.

Agreement / Release

The above-named Purchaser(s) hereby agree to release and hold harmless, Van Gordon Land Solutions, LLC, from any damage caused by heavy equipment traversing, delivering, or being used in the surrounding area of the project contracted for. Purchaser(s) acknowledge and accept that certain heavy equipment, including without limitation, excavators, bulldozers, dump trucks, semi tractor-trailers, large delivery trucks, cement trucks, or other necessary equipment may cause damage to surrounding terrain and/or appurtenances including without limitation, the leaving of ruts in finish graded areas; the buckling or cracking of finished concrete or asphalt including driveways, approaches, driveway aprons, pads, sidewalks, or concrete floors; damage to decorative vegetation, shrubs, bushes, or trees; and damage to mailboxes or other small structures that may impede access to the delivery point or jobsite.

WAIVER OF LIABILITY FOR HEAVY EQUIPMENT ACCESS

Specific Equipment and Areas of Concern:

Purchaser(s) hereby consent to the access and use of the heavy equipment on their premises for purposes of completing their construction project. Purchaser(s) hereby waive their right to any claim of damages, in law or in equity, and further release Van Gordon Land Solutions, LLC, it's employees, owners, contractors, subcontractors, vendors, agents, and assigns from any claim of damages caused by the use of heavy equipment in completing their project. This waiver is not limited by the described area or equipment; such description is merely included to identify the project and job site.
